

CAPSULE ENDOSCOPY PATIENT INSTRUCTIONS

Your doctor has scheduled you for a Capsule Endoscopy. This procedure involves ingesting a capsule the size of a vitamin pill. This capsule passes through your entire digestive tract transmitting pictures of your esophagus, stomach and small intestine. The images are transmitted to a sensor attached to your abdomen and then recorded to a data recorder device which is worn around your waist.

After 12 hours, the data recorder is taken off. It must be returned to our office the following morning by 9:00am. The PillCam is disposable and will be excreted naturally in your bowel movement.

- If you have a pacemaker or defibrillator please let the office know right away.
- A prep kit will be called into your pharmacy. *Do not* follow the instructions on the box, only follow our instructions. Please make sure we have the correct pharmacy information for you.
- **DO NOT** take any iron products for **one week** prior to your test. (This includes some vitamins).
- Pick a day that is best for you. Due to the time it takes to arrange these tests, the office has a no show / late cancellation policy. Capsule endoscopy appointments require 3 business days prior notice, or you may be charged a fee of \$150.00.

CLEAR LIQUID EXAMPLES: (LIQUIDS THAT YOU CAN SEE LIGHT THROUGH)

Water, Ginger-ale, clear fruit juices (apple, white cranberry, white grape), beef or chicken broth/bouillon, clear soda, Gatorade, Kool-Aid, popsicles, and Jell-O. **NO RED COLORS**

- ⇒ **Avoid** coffee, tea, and dark colored sodas
- ⇒ Nothing with **red dye** listed as an ingredient
- ⇒ **DO NOT** eat solid foods
- ⇒ **DO NOT** drink milk or milk products
- ⇒ **NO ALCOHOL**

Appointment: _____

Time: _____

Report to:

- 739 Irving Ave #400, Syracuse, NY
- 8324 Oswego Rd, Second Floor, Liverpool, NY

YOUR PREP INSTRUCTIONS

THE DAY BEFORE YOUR APPOINTMENT:

Eat a high protein breakfast and a light lunch.

12:00 noon

Clear liquids only - NO SOLIDS

6:00pm

**ONLY follow our instructions, NOT the box!*

Start the prep (**GoLYTELY**).

- Drink an 8oz glass every 15 minutes (for a total of 64 oz)

Continue to drink lots of clear liquids to prevent dehydration and headache until 10:00pm.

10:00pm

NOTHING MORE BY MOUTH.

THE DAY OF YOUR CAPSULE ENDOSCOPY:

- Nothing to eat or drink
- If you are a diabetic patient please call the doctor that manages your diabetes and let them know you will be prepping for a colonoscopy. They will advise you on instructions for adjusting your medications during your prep.
- Do not take any medications up to 2 hours before your exam except heart and blood pressure medications (they can be taken as needed).
- Do not apply body lotion or powder to your abdomen.
- Wear loose fitting, two piece clothing. Your upper clothing should be opaque not sheer.
